

EC-Directive No. 1907/2006 regulation on registration, evaluation, authorisation and restriction of chemicals (REACH), based on REACH authorisation list 04.02.2026

Ferratec Technics AG is an importer of products also from non-EU countries. According to the REACH regulation, only substances in an article that are released from it must be registered.

EC No. 1907/2006; Article 7 Paragraph 1:

"Any producer or importer of articles shall submit a registration to the Agency for any substance contained in those articles, if both the following conditions are met:

- the substance is present in those articles in quantities totalling over one tonne per producer or importer per year;
- the substance is intended to be released under normal or reasonably foreseeable conditions of use."

If the release of a substance is not foreseen, but cannot be excluded (under normal or foreseeable use), notification to the Agency is required if all of the following three conditions are met

- substances of very high concern, a list of these substances (candidate list) was published on June 1, 2009 by the agency and amended several times, most recently on 04.02.2026.
- present in the article in a concentration of more than 0.1% by mass
- contained in the product in a total amount of more than 1 tonne per year and importer

Our products: ferrules, CEE plugs and combinations, braided hoses, cables, cable ties, cable lugs, cable processing tools, clamps, leadframes, magnets, tweezers, pneumatic parts, heat-shrink tubing, connectors, disc springs, transformers etc. it can be assumed that substances will not be released during normal and foreseeable use. Therefore, no obligations arise for us under Article 7 paragraph 1.

To the best of our knowledge, our products do not contain any substances above 0.1% by mass that are part of the "candidate list". Therefore, this does not result in any obligations to notify or register with the REACH agency.

RoHS-conformity (EU RoHS Directive 2011/65/EU, extension 2015/863/EU)

We hereby confirm that, to the best of our knowledge, all articles comply with the provisions of Directive 2015/863/EU as marked on the business documents.

Best Regards

FERRATEC TECHNICS AG
